

“It’s a privilege to live our mission focused on improving the health of our community. Adventist Health’s long history of preventive care and wellness compels us to align our services with the changing needs of the community. We are proud to support safe, affordable housing for residents of East Portland through this collaborative effort.”

David Russell  
President and CEO  
Adventist Health Portland

“People with health issues, who don’t have stable housing, just can’t make the changes they need, whether they’re recovering from hospitalization, managing chronic health conditions or overcoming addiction. Housing not only improves health outcomes, but helps reduce the overall costs of health care. CareOregon’s support is an investment in preventive health care and our members’ futures.”

Eric C. Hunter  
President & Chief Executive Officer  
CareOregon

“We see this unique housing partnership as supportive of both mental and physical health at a time when people are most in need. We know that health is more than medical care. And we need to eliminate barriers to health for the most vulnerable members of our community.”

Andrew McCulloch  
President  
Kaiser Permanente Northwest

“Part of Legacy Health’s mission is good health for our community. As an individual and as a leader at Legacy Health, I believe that adequate housing is a component of good health for our community. Legacy needs to make this investment if we truly want to fulfil our mission. I’m proud to work with Central City Concern and my health care colleagues to make a contribution to a housing project that will truly make a difference within our community and our world.”

George J. Brown, M.D.  
President & Chief Executive Officer  
Legacy Health

“OHSU is proud to join with other local health systems in support of Central City Concern’s Eastside Health Center. We recognize that good health requires more than good health care. We understand the value of transitional housing as a key component of improving health for vulnerable populations. No one meets those needs better than Central City Concern.”

Joe Robertson, MD, MBA  
President  
OHSU

“In health care, we are moving from a focus on caring for disease and acute illness toward ongoing care and treatment of a patient’s overall needs. We know that access to housing helps stabilize people’s lives – and as a result, puts them in a better position to get the best level of care to keep them well.”

Dave Underriner  
Chief executive  
Providence Health & Services – Oregon
